

Area codes 702 and 725

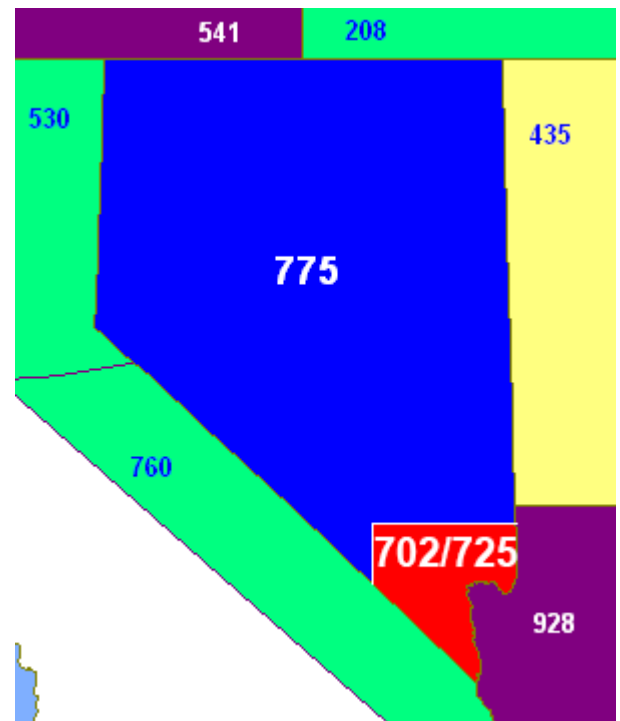

This is an old revision of this page, as edited by [HangingCurve](#) (talk | [contribs](#)) at 01:43, 21 September 2017 (*latest projection*). The present address (URL) is a [permanent link](#) to this revision, which may differ significantly from the [current revision](#).

Area codes 702 and 725 are the North American Numbering Plan telephone area codes serving [Clark County, Nevada](#), including [Las Vegas](#).

Area code 702 was originally assigned to the entire state of Nevada, as one of the [original numbering plan areas](#) established in October 1947. On December 12, 1998, most of Nevada, including [Reno](#) and [Carson City](#), was split off as area code 775. Nevada's explosive growth in the second half of the 20th century, and the corresponding expansion of telephone service, would have made a second area code a must in any case. However, the split was hastened by the proliferation of cell phones and pagers, particularly in Las Vegas, Reno, and Carson City.

Since May 3, 2014, area code 702 has been overlaid with area code 725. Ten-digit dialing is required for all calls, with exceptions for landline-based callers calling long distance within the county, for which "1" must be dialed first.^{[[1](#)]}

Under current projections, the Las Vegas area will not need another area code until late 2044 at the earliest.^{[[2](#)]} Despite Las Vegas' continued growth, 702/725 is nowhere near exhaustion.

The red numbering plan area has area code 702/725; the blue area has area code 775, also in Nevada. All other area codes are in other states.
